The receipts this week are about 1,700 head less than we reported on Wednesday last, and 1,200 head less were offered at Allerton's Wash-

ington drove yard

The prices of good cattle are 25c per cwt higher, while poor and common stock brings about the same as last week. The average quality is inferior, there were but few prime droves, part of The loss of the Union men is said to be from which sold at about \$9 per cwt., and averaged \$800 to 900, while that of the rebels is between \$8 50. There was a large portion of light, thin steers with a liberal sprinkling of poor heifers and farrow cows.

The large purchases of last week lessened the natural demand to-day, and the heavy rain of the last two days has been unfavorable. By far the larger portion were sold on Tuesday, but the yards were all cleared of stock to-day. Owing to the Government use of the rolling stock on some of the Pennsylvania roads, some

droves by that route arrived late. All things considered, the drovers have no reason to complain of this market which closes with a good tone at our quotations. We quote:
